T³ International Conference

2011 LEADERSHIP AWARDS

The T³ Leadership Award recognizes educators who have exemplified the ideals of the T³ Program – that is, to enhance mathematics and science teaching and learning through the creative and enthusiastic application of classroom technology.

This year's T³ Leadership Award Recipients are Corey Bobby and Jeff Lukens:

Corey Bobby found two of his greatest loves as a graduate student at Ohio University. While a teaching assistant, he learned about "The Power of Visualization" provided by a graphing calculator for both math and science teaching.

Since joining T³ in 2001, Corey has worked on many projects, including developing curriculum, leading workshops for teachers and administrators, and creating online courses for TI-Nspire™ technology.

Corey values the friendships he has made in the T³ family. He also appreciates the chance to "give back" by organizing the Instructor Silent Auction to raise money for the Susan G. Komen Foundation, which has raised about \$50,000 in three years.

The other love Corey discovered at Ohio University was Tracy Watson, his wife and fellow T³ Instructor. Corey and Tracy live on sixteen acres near Little Rock, Arkansas, with their seven dogs and four cats.

Jeff Lukens teaches Advanced Placement Biology at Roosevelt High School in Sioux Falls, South Dakota, while serving as the Science Department Chair and the school's AP Coordinator.

Following a 1993 workshop on the TI-82 graphing calculator, Jeff joined Bob Tower in efforts to seamlessly integrate Biology and mathematics using the new calculator. Jeff later developed new T³ Institutes including "Connecting Biology and Algebra" and "AgPrep" (now "AgriScience"), which uses the graphing calculator to integrate agricultural science with the more traditional sciences and mathematics. In addition, Jeff has been a member of several writing and planning teams for T³ and Texas Instruments.

Jeff and his wife Karen have been blessed with three daughters and, to date, two sons-in-law. Jeff loves the outdoors and takes part in activities such as running, hunting, gardening and hiking.
